

New Product Announcement

IN-S63WTxIR Series

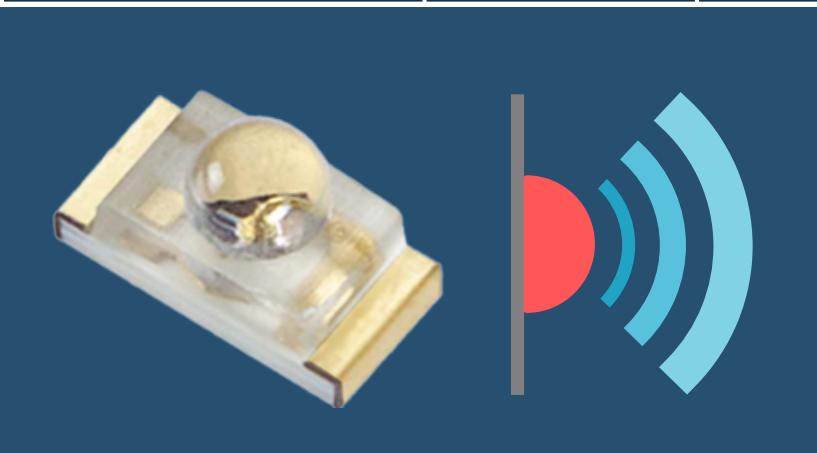

Infrared Emitters

The IN-S63WTx series features compact 0603 Infrared devices measuring just 1.6 x 0.8 x 0.95mm. These parts are mechanically and spectrally matched to the phototransistor and offer a low forward voltage, high radiant intensity, and long life expectancy. Each part in this release is also ROHS and REACH-compliant, helping ensure your product is ready for the global market.

Product	Vf Typ.	λ (nm)	Luminous Intensity (mcd)	Ie (mW/sr)
IN-S63WTIR	1.3	850	850	15
IN-S63WTHIR	1.3	940	940	10
